Department of Transportation
Olympia, Washington 98504

March 3, 2026

ATTENTION: All Bidders and Planholders

SR-99
1ST AVE S BRIDGE
TOWER MIT & WATERTIGHT DOOR RPL
0099(149)

Addendum No. 1

The Special Provisions for this project are amended as follows:

Special Provisions

1. On page 5 Line 6 the following is added:

SR 99 NB Duwamish River Bridge - Emergency Grid Deck Replacement
Anticipated Construction: April 2026 to May 2026
Thomas LaBolle, P.E.
Thomas.Labolle@wsdot.wa.gov
(206)-768-5862

The Emergency Deck Repair project shall have scheduling priority if the schedules come into conflict and this project's work cannot be conducted concurrently with the Emergency Deck Repair without interference.

2. On page 39 Line 17 to Line 24 is deleted and replaced with the following:

When a request for bridge opening is made, the bridge tender will notify the Engineer who will then notify the Contractor. The Contractor shall remove all traffic control items and equipment from the opening portion of the bridge per the drawbridge operation regulations 33 CFR 117.1041. During the Bridge Deviation approved dates as set by the USCG, from July 14th, 2026 to January 8th, 2027, the Contractor shall remove all traffic control items and equipment from the opening portion of the bridge within 1 hour of the request. In addition, the bridge must open the draw for emergency vessels responding to a call as soon as it is safe to do so per the drawbridge operation regulations 33 CFR 117.1041. After opening is complete and center locks are locked, the Contractor can replace all traffic control items. The bridge tender will then lift traffic barrier gates and resume vehicle traffic.

Bidders shall furnish the Secretary of Transportation with evidence of the receipt of this addendum. This addendum will be incorporated in the Contract when awarded and when formally executed.

Mark Gaines, P.E.
State Design Engineer
